Subject: Re: Dimock - Estimated Costs for TechLaw Procured Labs

Quick Comment. Subcontracting cannot be allowed by the laboratories. This is due to conflict of interest concerns.

You must have these conditions in your contract.

Subject: Dimock - Estimated Costs for TechLaw Procured Labs

Rich,

I wanted to fill you in where TechLaw currently stand with the proposed costs for the laboratory analysis to be performed. Please see the 2 attachments to see in detail the bids we have received for the analysis as well as the additional costs for the required expedited TATs.

In summary we will be using Pace Analytical (\$77,338.65), Isotech (\$5,727.00), and Northeast Environmental Laboratory (\$2,535). The expedited TAT cost is \$11,015.56. Keep in mind the cost is for all 71 proposed samples. If we analyze for less the cost will be lower.

Please let me know if you have any questions.

Thanks,

Suddha Graves
